PROFILE · EXECUTIVE LEADERSHIP STATEMENT

Research operations and academic-administration leader with 20 years inside decentralized, matrixed institutions—UAMS, Phillips Academy, and Harvard University—and, since November 2025, an independent data and AI practice. Brings a **"One Harvard"** approach to unifying strategy, people, analytics, and systems—**building** consensus and alignment without relying on formal authority.

Specifically, served as the primary technical advisor to 50+ FAS department chairs and divisional **deans**, aligning siloed departmental needs with central policy. **Measurably**, piloted the seven-source FAS DataHub—a team effort that used my faculty-affairs **reports** as its blueprint; after go-live, ad-hoc reporting requests fell from 300–400 a year to under 100. **Achievably**, the pilot started from reports leaders already relied on, adding governed definitions and reusable dashboards without disrupting daily operations. **Relevantly**, developed the Executive Reporting & Self-Service Analytics Modernization—a SMARTER operating proposal with 4 workstreams, 5 measures and a risk register—mapped to the duties in the posting. **Time-bound**, first results within 90 days, a first release by month 5, 6 decision gates, and benefits tracked over 36 months.

STRENGTHS MATCHED TO THE ROLE

Faculty recruitment & advancement
Redesigned appointment and promotion workflows and supported faculty searches and offer letters across the decentralized FAS environment.

Data quality & governance
Managed online giving ingestion, exception handling, and cash reconciliations.

SELECTED WORK SAMPLES

- **Executive Reporting & Self-Service Analytics Modernization (2026):** a SMARTER operating proposal prepared for this application: 4 workstreams, 5 measures, 6 gates, risk register and forecasts. Public data; synthetic figures labeled.
- **DBMI Operating Plan series (2026):** a master plan and four program plans—Research & Grants, Faculty Affairs, Responsible AI & Computing, and Education & External Impact—built on the same SMARTER chapters, with a status report and burndown, a ROAM risk register, forecasts with stated uncertainty, and 65+ supporting modules. Each initiative is mapped to the HMS BEACON priorities. Six working platforms cover Faculty Affairs, Research & Grants, Gift & Development, HMS Advancement, Finance & Budget, and a Research Administration Dashboard Prototype. Public data only; synthetic figures labeled.
- **BioMed Informatics Learning Path:** Three stages and 12 modules, from biology and chemistry through Python/R, statistics, SQL, and algorithms to AI/ML in health, genomics (FASTQ, VCF), clinical informatics (FHIR), and translational bioinformatics—each with an AI tutor.
- **AI Data Analytics Hub:** 651 topics across 27 modules, from Excel, SQL, and Python to machine learning, BI dashboards, cloud and SSIS migration, and higher-education advancement and program/portfolio monitoring, with an AI prompt lab for every topic.

SKILLS & CAPABILITIES

01. Academic Operations & Institutional Coordination
Faculty affairs, research administration, personnel supervision, process improvement, and service to faculty and academic leadership.

02. Financial Stewardship & Decision Intelligence
General Ledger reconciliations, sponsored-research reporting, controls, and analysis that informs financial and operational decisions.

03. Data Modernization & Human-Centered AI
Governed data integration, self-service reporting, and AI-assisted monitoring that reduces repetitive work while decisions stay with the people authorized to make them.

PROFESSIONAL EXPERIENCE

Independent Practice, Remote **11/2025 – Present**
Data & AI Transformation Practitioner · Advancement technology practice since 2008

- **Self-Service Reporting:** Design reusable templates and dashboards leaders can run without waiting on an analyst.
- **Advancement Technology:** Senior practice since 2008 covering constituent data, gift processing, and campaign and financial **reporting**.
- **Data and AI Adoption:** Plan and roll out client adoption from use-case selection and readiness through rollout and monitoring.

Harvard University, Cambridge, MA **04/2019 – 11/2025**
IT Reporting, Data & Business Analyst · Faculty Affairs Data Owner · Faculty of Arts & Sciences, Office for Faculty Affairs

- **Matrixed Leadership & Consensus Building:** Served as the primary **faculty affairs** data owner supported 50+ department chairs and FAS **deans**, aligning diverse departmental needs with central university policy and data standards without formal authority.
- **FAS DataHub Pilot:** Piloted the governed hub—a team effort that used my faculty-affairs **reports** as its blueprint—joining seven FAS sources (Aurora, SIS, GSAS BI Data Warehouse, GMAS, FROPS, Institutional Research, FAS Registrar) through Oracle BI / HART and serving FAS **Finance**, the Office of the Governing Boards, the Graduate School, and Harvard College.
- **Leadership Materials:** Prepared all data, reporting, and meeting materials for the deans, visiting committees, and the Office of the Governing Boards.
- **Sponsored Research:** Produced GMAS sponsored-research reports and joined grant data to faculty and finance records.

- **Efficiency:** Ad-hoc data requests fell from 300–400 a year to under 100 after go-live, supported by standard definitions, dashboards, and validation checks.

Phillips Academy, Andover, MA **08/2016 – 04/2019**

Assistant Director of Gift Services & Reporting · Office of Academy Resources

- **Campaign Finance:** Coordinated financial analytics and leadership pacing **reports** for a $400M comprehensive campaign reporting.
- **Reporting Systems:** Built analytics in SQL Server Management Studio, SSRS, Crystal Reports, and **Tableau**.
- **Controls and SOPs:** Designed repeatable procedures that reduced reporting discrepancies and strengthened audit-ready evidence.
- **GL Bridge Reconciliations:** Partnered with the Comptroller's office on financial bridge reconciliations to the General Ledger.

University of Arkansas for Medical Sciences (UAMS), Little Rock, AR **05/2008 – 07/2016**

Associate Director of Donor Records · Institutional Advancement, academic medical center

- **People Management:** Hired, supervised, and conducted performance reviews for donor-records and information staff.
- **Transaction Operations:** Supervised systems and processing for 60,000+ constituents and 20,000+ transactions a year.
- **Internal Controls:** Enforced exception resolution, duplicate detection, database controls, and timely data-quality review.
- **Advanced SQL:** Wrote views, stored procedures, and automated data-quality queries in **Oracle** SQL Developer.

Additional Experience **2002 – 2008**

Program Specialist · Management Project Analyst II · International Coordinator · UAMS College of Medicine & College of Pharmacy (2005–2008) · UNCTAD (before 2005)

- **PI Research Support (College of Medicine):** Drafted grant proposals, budgets, effort and salary distributions, award documents, and sponsor reports for a principal investigator's approval before processing and submission.
- **College of Medicine:** Administered 360° evaluations and program assessments; supported senior directors with data visualizations and needs assessments.
- **UNCTAD Trade Point Chiang Mai, Thailand (before 2005):** Managed global communications, e-commerce, conference operations, and translation.
- **College of Pharmacy:** Coordinated programmatic assessments and account reconciliations.

CERTIFICATIONS

- **QPS Master Expert Certification** – AI Execution (including Generative AI and AI Tools)
- **AI Marketing and Business Development · AI Project Management · Data Analytics**
- **AI for Data Analysis** – Generative AI, Responsible AI, multimodal prompting, decision support systems, prompt engineering

EDUCATION

- **B.A., English, Linguistics & Literature** – Minor in German · Payap University, Chiang Mai, Thailand
- **Graduate coursework toward a master's degree, Nonprofit Management** – University of Arkansas at Little Rock (15 credit hours completed)

SYSTEMS

- **Harvard Systems:** Aurora, GMAS, FROPS, SIS, GSAS BI Data Warehouse, Oracle BI / HART, PeopleSoft, Workday.
- **Data & BI:** Oracle SQL, SQL Server, SSRS, Crystal Reports, Tableau, Power BI, Excel.
- **Advancement:** Ellucian Advance, Blackbaud, Agilon, iGiving.
- **Working Approach:** Connected data, clear ownership, risk-based monitoring, reusable procedures, and human review when an AI-supported decision has consequences.
- **Operating Style:** A "One Harvard" orientation—building consensus and alignment across decentralized, matrixed stakeholders to unify strategy, people, and systems.
